

Gauge Chart

Bars denote the value and completion of the target

Max value shows the target

Callout values are highlighted to get attention

Get the metric value and target achievement in a single glance

Traditional Way: KPI Cards

Users have to read and mentally process text to understand the situation without any visual cues

Sales

\$1.24M

Target - \$1.45M

Profit

\$135.62K

Target - \$193.97K

Conclusion

Gauge Charts deliver instant clarity on key metrics by showing progress toward goals at a glance.

Perfect for performance tracking KPIs in focused executive dashboards.
